

Hello.

Fast and up-to-date: with this second edition of the SHL Newsletter, we'd like to provide you with all the latest news worth knowing, plus the facts and figures relevant to the business sector we share with you. Thank you for your interest!

TECHNOLOGY DAYS 2009

POLISH UP YOUR
FUTURE PROSPECTS.
WITH SHL

**Have you sent in your application yet?
Latest news on the Technology Days**

SHL-Systems in use, lectures delivered by experts in their fields, and an exciting evening event as well as a Company Open Day. You can read the very latest news about what to expect at our Technology Days, from June 18-20 at our headquarters in Böttingen. For more information, go to the website www.glaenzendezukunft.com. Apply now online, or by phone, to join us for what promises to be a fascinating event.

Please send back by May 31, 2009

More space! The new extension at our company headquarters

With its modern, appealing architecture both inside and out, the company headquarters in Böttingen makes it clear at first glance that SHL is a motor for innovation in automation technology. We have primarily made this investment for you, our customers. A reception area, new conference rooms with state-of-the-art video technology, and refurbished administration rooms for optimal project preparation mean that you can now profit from improved consulting.

**Precision for Hansgrohe: Grinding and polishing
of high-quality components**

When far-reaching quality and design demands are made on products, the surface refinement technology also has to fulfil the most exacting requirements. Hansgrohe, one of the leading international producers in the sanitary fittings sector, is ideally positioned for surface processing: the company has acquired a further flexible robot cell for grinding and polishing tasks from SHL – for high-quality products with elaborate contours.

Double Polishing Machine SDP 1000 ROB

Grinding, polishing, deburring? Milling, brushing, measuring? Loading and unloading, assembly, palleting? For all these, SHL provides the suitable machines and systems. Contact our sales staff for more detailed information on our swiveable double polishing machines SDP 1000 ROB and their practical benefits.
